Spectrum Math Workbook, Grade 1

Synopsis

Spectrum Math for grade 1 keeps kids at the top of their math game using progressive practice, math in everyday settings, and tests to monitor progress. The math workbook covers addition, subtraction, composing shapes, comparing numbers, and taking measurements. A best-selling series for well over 15 years, Spectrum still leads the way because it works. It works for parents who want to give their child a leg up in math. It works for teachers who want their students to meet—and surpass—learning goals. And it works to help children build confidence and advance their skills. No matter what subject or grade, Spectrum provides thorough practice and focused instruction to support student success.

Age Range: 6 - 7 years

Grade Level: 1 and up

Customer Reviews

Almost everything my son needed for Math. Lacked on money and time in my opinion but I will use these workbooks again.

Great book to keep my daughter going through the summer. Easy pages and clear instructions.

I love this book it gives my first grader just the right amount and it's a mixture of concepts such as money, addition, and measurements. I would recommend this book, it gives my daughter the extra

help she needs, My daughter turned 6 at the end of August so she usually the youngest in her class and a bit slower on grasping things in class versus her peers who turn 7 throughout the school year.

Spectrum Curriculum is great! So glad to have found it!

Good for practice for the little ones. The duck stories should include more questions but otherwise, simple and fun enough for the first grader.

Purchased for my daughter who wanted more homework. She loves it and it does challenge her.

This book has been great for my son to practice his math skills over the summer break.

It helps reinforce what my child learns in school. This is a great workbook!!
