Memory Lane (Doctor Who)

Synopsis

No summer can ever quite be as glorious as the ones you remember from when you were young, when a sunny afternoon seemed to last forever and all there was to do was ride your bike, eat ice-lollies and play with Lego. Tom Braudy is enjoying just such an afternoon when the TARDIS lands in his Nan's living room and interrupts her in the middle of the snooker. After they've apologised, the Doctor and his friends soon discover matters of far greater concern than the fact that their time machine is blocking Mrs Braudy's view of a thrilling century break. The street which Tom happily cycles up and down appears to have no beginning or end, and every single house on it is identical. Is this the future of suburbia, or something even more sinister? Why doesn't Tom look as young as he behaves? And can anybody remember which house the TARDIS is in?

Customer Reviews

When the TARDIS is stolen by an Ice Cream man at the end of Part One, you know you're in for an interesting story. This was writer Eddie Robson's first Doctor Who release for Big Finish and features the imagination and humor that has become trademark in stories like, "Human Resources" and "The Condemned." The story is engaging, fun, and has a great premise at it's core. There are good performances by the regulars throughout with the much-criticized C'Rizz saving the day. Probably the most interesting character moment was Charley. She regresses to childhood and the simulation recreates her childhood home and mother and India Fisher plays Charley as the precocious adventurous little girl who would stow away on the R-101. Overall, a very entertaining

release.
