Customer Reviews

Intended for school children, Walkabout Dreaming is a good introductory book to teach aboriginal culture. It is composed of comprehensions, aboriginal words, bush tucker - food etc with a wide range of activities. I have picked up a few words myself as I was reading it. It also comes with interesting Dreaming stories about creation such as a the story of black Crow and Eaglehawk. This is not a complicated book. The lessons are laid out simply about the aboriginal life and beliefs regarding creation and such in an understandable manner without much complexity.
