Rapanese Spanish Series 3: The Musical Method Of Learning Spanish Series 3 (Rapanese Musical Method Of Learning Series III)

Synopsis

My brother Mike and I believe that in the beginning you need to learn a few words very well, instead of many words partially learned. REPETITION WITHOUT BOREDOM, THAT IS OUR KEY. After listening to all five Spanish tapes or CD'S than start listening to Spanish music radio or television (specifically commercials). On this 72 minute COMPACT DISC for beginners, frequently used words and phrases in Spanish are translated into English repetitively, and it's all superimposed on really cool music. It was put together by Mike D'Amours a French Canadian, ex-disc jockey, foreign language teacher.

I've studied several different languages and while I was always good at writing and grammar, I was weak in talking and comprehending speech. I've tried other tapes that I've listened to in the car, but lost interest in them because I couldn't understand or keep up. This tape actually got me talking and comprehending Spanish. Granted, you won't be fluent by only listening to these tapes, and like anything else, you have to actually listen to them repeatedly for them to have any effect. The music was a little cheesy, but it made me laugh and the speakers didn't take themselves too seriously and so it all seemed to work for me. I've been listening to and from work for several weeks now. I've learned all the phrases from the first set of tapes, and just bought the second set in the series.

This audio cassette is fun and useful! For those of us who hope to actually learn to speak Spanish

coherently someday, a tape like this really helps to "tune up" the ear to proper understanding and pronunciation. Repetition is the key to learning a language, and the Rapanese method makes it entertaining as well as instructive.

I had such hopes for this series, but was agast at the glaring errors it made in just the Elementary edition. For instance, the verb "estar" is used in place of the verb "hacer" to convey the weather (e.g. "esta frio" instead of "hace frio"). That ended my faith right then and there as I do not want to sound like a dumb American when traveling. The editors should be ashamed that the linguistic background of the author is so lacking that he'd make this error and who knows how many others.

This tape gives you a "good taste" of Spanish. You won't really learn the language by only listening to the first tape in the series, but it is fun listening, and very helpful with pronunciation. Rapanese is certainly a good supplement to more comprehensive instruction.
