Customer Reviews

Kenneth Taylor - well known as the author of The Living Bible, and founder of Tyndale House publishers - was a man dedicated to conveying the Christian message to children (he had 10 himself) in simple, understandable truths. Big Thoughts for Little People, a much-loved, best-selling picture book has now received fresh new illustrations while maintaining Taylor's text from the original edition. Many readers my age may be familiar with the original version of this classic title, which was wildly popular during the '80s, and be looking forward with nostalgic fondness to sharing this new release with their own children. I however, missed out on the first edition as a child, so it was with fresh eyes that my daughters and I dug into it together. My first impression was that this vibrantly illustrated hardcover filled with bright, action-filled paintings of children with simple text and

discussion questions might appeal to my three-year-old, I was wrong. Every time I open its pages I'm surrounded by a flock of eager faces - 6, 3, and 1, as all of my children adore this newly revised classic. Arranged around the letters of the alphabet, each letter features a lesson relating to Christian character and moral development. A is for Asking, B is for Behave, C is for Crying and so on. Introduced by a four lines of rhyming verse: D is for doing What needs to be done. So please do it cheerfully. Then you'll have fun. At this points all parents are saying, "Huzzah!" Who can argue with reading this to their children? But, how do the children react?
